The Iowa Agriculture Literacy Foundation mission is to educate Iowans with a focus on youth regarding the breadth and global significance of agriculture.

IALF serves as a central resource for educators and volunteers who want to teach Iowa's students about agriculture. As the leading producer of agricultural products, it is important for all Iowans to understand the essential role agriculture has in their lives. Our foundation offers many resources such as lesson plans, student publications, grant opportunities, a lending library, professional development, and more!

Connect to Iowa Pork Production with these Resources:

- **Feed Sacks Pork Lesson**
  In this cross-curricular lesson students explore pork nutrition and STEM in pork production.

- **Pork Production Then and Now**
  In this science/social studies lesson students explore pork production in the past and now. They also engage with concepts of genetics and nutrition and how society affects the pork industry.

- **Pigs and Pork: From Farm to Table**
  In this social studies lessons students investigate physical resources, human resources, and physical capital needed to produce pork and by products made from pigs.
