Producer Education			
Animal Welfare			
Title		Description	Price
Animal Handling for Pork Producers		This brochure provides descriptions of animal behavior to help individuals develop proper handling and management techniques. Topics include natural instincts to escape, follow each other and ease of becoming frightened. Flight zone and point of balance are depicted, plus key points on moving livestock. Identifying and dealing with fatigued hogs, plus basics of facilities and equipment are included. Available in English and Spanish.	\$0.00
On Farm Euthanasia of Swine-Options for the Producer		It's inevitable that in every swine production system, animals will become ill or injured in such a way that euthanasia will be necessary. Since it is usually impossible or impractical for the veterinarian to be available for all on-farm euthanasia, producers themselves often need to perform humane euthanasia of pigs. A supplemental training USB drive is available upon request.	\$0.00
